Knowledge is central, when investigating communication in and on new technologies and the expertise behind it. Hence, taking a knowledge perspective in analysing this type of communication gives us access to relevant characteristics. The lectures will consist in overviews over relevant knowledge concepts and over different approaches for analysing such knowledge.

**KNOWLEDGE IN TEXTS. A SURVEY OF APPROACHES**

**Mercoledì 3 giugno 2020 | ore 10.00-12.00**
