

Programma Visiting Professor a.a. 2023-2024

Prof. Marcello Vitali-Rosati

(Université de Montréal)

How technology thinks

Understanding and using structured data in the humanities

- 19-02-2024 (11am-1pm Laboratorio Coronelli) *Introduction and theoretical stakes: how technology thinks*
- 26-02-2024 (11am-1pm Laboratorio Coronelli) *What is data? What is the difference between documents and data? What is open data?*
- 04-03-2024 (this session will probably be moved to Friday the 8th: to be determined with the students) *Formats, structures and epistemological models: how a particular data structure, format or protocol carries and implements a worldview. Licenses and legal considerations: how can data be open?*
- 11-03-2024 (11am-1pm Laboratorio Coronelli) *A (very short) introduction to Python*
- 18-03-2024 (11am-1pm Laboratorio Coronelli) *An introduction to APIs*
- 25-03-2024 (11am-1pm Laboratorio Coronelli) *Practical exemples: using open data*
- 08-04-2024 (4 hours: 9am-1pm Laboratorio O Di Vita) *Collective work and conclusions*
